Human Trafficking vs. Smuggling

- It is not a choice
- Crime against a person
- Does not require a person to move across state lines.

Based on exploitation

The two crimes can occur together

A person consent & pays to move
A crime against a border
When I say the word “trafficking” what comes to mind?

This is the Hollywood version

Action

- Recruiting
- Harboring (or housing)
- Transporting
- Providing
- Obtaining

In the case of sex trafficking

- Patronizing
- Soliciting
- Advertising
Means

**Force**—Physical assault, sexual assault, controlled movement, or isolation

**Fraud**—False promises about work and living conditions, false pretenses for interpersonal relationships, use of false promises of a better life, fraudulent employment offers, exciting travel

**Coercion**—Threats of serious harm or psychological manipulation such as holding someone at gunpoint, threatening the life and safety of a person or their family and friends, withholding legal documents, threats or CPS or ICE
Sex Trafficking of Minors

Minors induced into commercial sex are trafficking victims regardless of whether force, fraud, or coercion have been used.
Purpose

Who is affected?

**Sexual exploitation and trafficking affects:**

- Youth of all genders (girls, boys, transgender, gender variant)
- Youth of all sexual orientations
- Youth of any economic class
- Youth of any race
- Youth at any education level

However, sexual exploitation *disproportionately* affects young people experiencing poverty, homelessness and discrimination, particularly youth of color, LGBTQ2I youth, and youth in foster care.

A number of studies have found that among homeless youth, there are comparable numbers of boys and girls who disclose sexual exploitation (ECPAT USA, 2013).

Innovations HTC 2020
The Administration on Children, Youth and Families, (ACYF), within the U.S. Department of Health and Human Services (HHS) Administration for Children and Families, (ACF), cited a number of alarming statistics in a 2013 document, including several studies showing that 50% to more than 90% of children and youth victims of child sex trafficking had been involved with child welfare services (ACYF, 2013)*.

60% of runaways who are victims of sex trafficking had been in the custody of social services or in foster care (Ryan, 2013)*.

Statistics from a California organization indicate that between 50% and 80% of commercially sexually exploited children in California in 2012 had been involved with the child welfare system (California Against Slavery Research and Education, 2015)*.

*As cited by Child Welfare Information Gateway, 2015
MMIP link to the sex trafficking
According to a 2016 National Institute of Justice Report,

- 56% of Native women have experienced sexual violence in their lifetime
- 38% were unable to receive any type of victim services

The high rates of sexual violence is closely interconnected with the likelihood of Native women going missing or being murdered, and on some reservations, they are murdered at more than ten times the national average.

Many MMIW are trafficking victims
Fact: Foster care children are targeted by traffickers because of their need for love, affirmation, and protection.
