

What are you excited to learn about Native STAND 2.0?

What is the mission? How might it relate to the work we do?

the new digital version of Native STAND!

ways to engage and help support youth in a positive way

How the curriculum can be adapted over the variety interests and focuses

Seeing the new look and the line up of modernized, updated lessons.

everything! I'm hoping to learn more about the facilitation.

Looking forward to see the new updates and the flow of it all.

Everything. I am not familiar with this.

How to incorporate LGBTQ+ inclusive and trauma-informed approaches

what does the digital version look like?

how are youth represented or heard in the program?

I am excited that my conservative director is moving on to a new position, so I will be able to use Native STAND 2.0 more. I do like him and he will be missed but... we need to be able to educate

**Honoring
Diversity &
Respecting
Differences**

**loved the friendly
and familiar
approach to the
lesson. It's not so
text-heavy and
overwhelming for
the facilitator and
the students.**

**Culture is
interwoven
throughout the
lesson, really
evident in the text
and graphics.**

**intriguing visuals
that draw the
student in - I
wouldn't have
thought to include a
gender frog in a
lesson.**

**LOVE the 'modern'
approach to
incorporating Native
culture! Including
quotes from modern
Native leaders is really
inspiring - lets people
know that Natives are
still here and leading!**

**I love that each
lesson tells the
facilitator what to
expect for
themselves and the
students upfront,
and then there's
reminders before
each section.**

Goal Setting

**Lesson
looks
beautiful.**

**Wanting to give to
leadership to
consider using as
there is a desire for
culturally relevant
curriculum for
youth.**

**Realistic and
achievable.**

**Really like
that culture is
integrated. A
real plus!**

**Our school district is
always looking for
“Native Resources”
this is great!**

**The language and
the approach is
realistic when
talking about Goals.
It is not about just
checking the boxes
in covering certain
topics -- but has real
intention.**

**Our school district is
always looking for
“Native Resources”
this is great!**

**Very simple
lesson lay out
and like how it
is not
complicated.**

Safe Snagging

**Going through safe
and risky behaviors is
great and to use it as
a game can be an
icebreaker and
conversation starter.
And a time to remind
them this is education
and protection not
permission**

**Condoms &
Contraception**

**Like the layout
and formatting-
makes it easy to
use**
