

Ending the Epidemics in Indian Country

Clinicians serving AI/ANs are invited to participate in the Indian Country ECHOs – Ending the Epidemics in Indian Country Training Program. This program will provide comprehensive information to effectively integrate evidence-based clinical interventions and treatments to address and eliminate the epidemics while utilizing culturally appropriate care models. This program will be held virtually each week for four sessions beginning on Tuesday May 3rd, 2022 from 11:30am –1:00pm PT, with subsequent virtual ECHO clinics available. CE will be provided.
