Who's in My Support Network?

Description

Before we can begin to let youth in our communities know that we are an "Askable Adult" that they can ask sensitive questions of, we need to make sure we have a support system of our own in place.

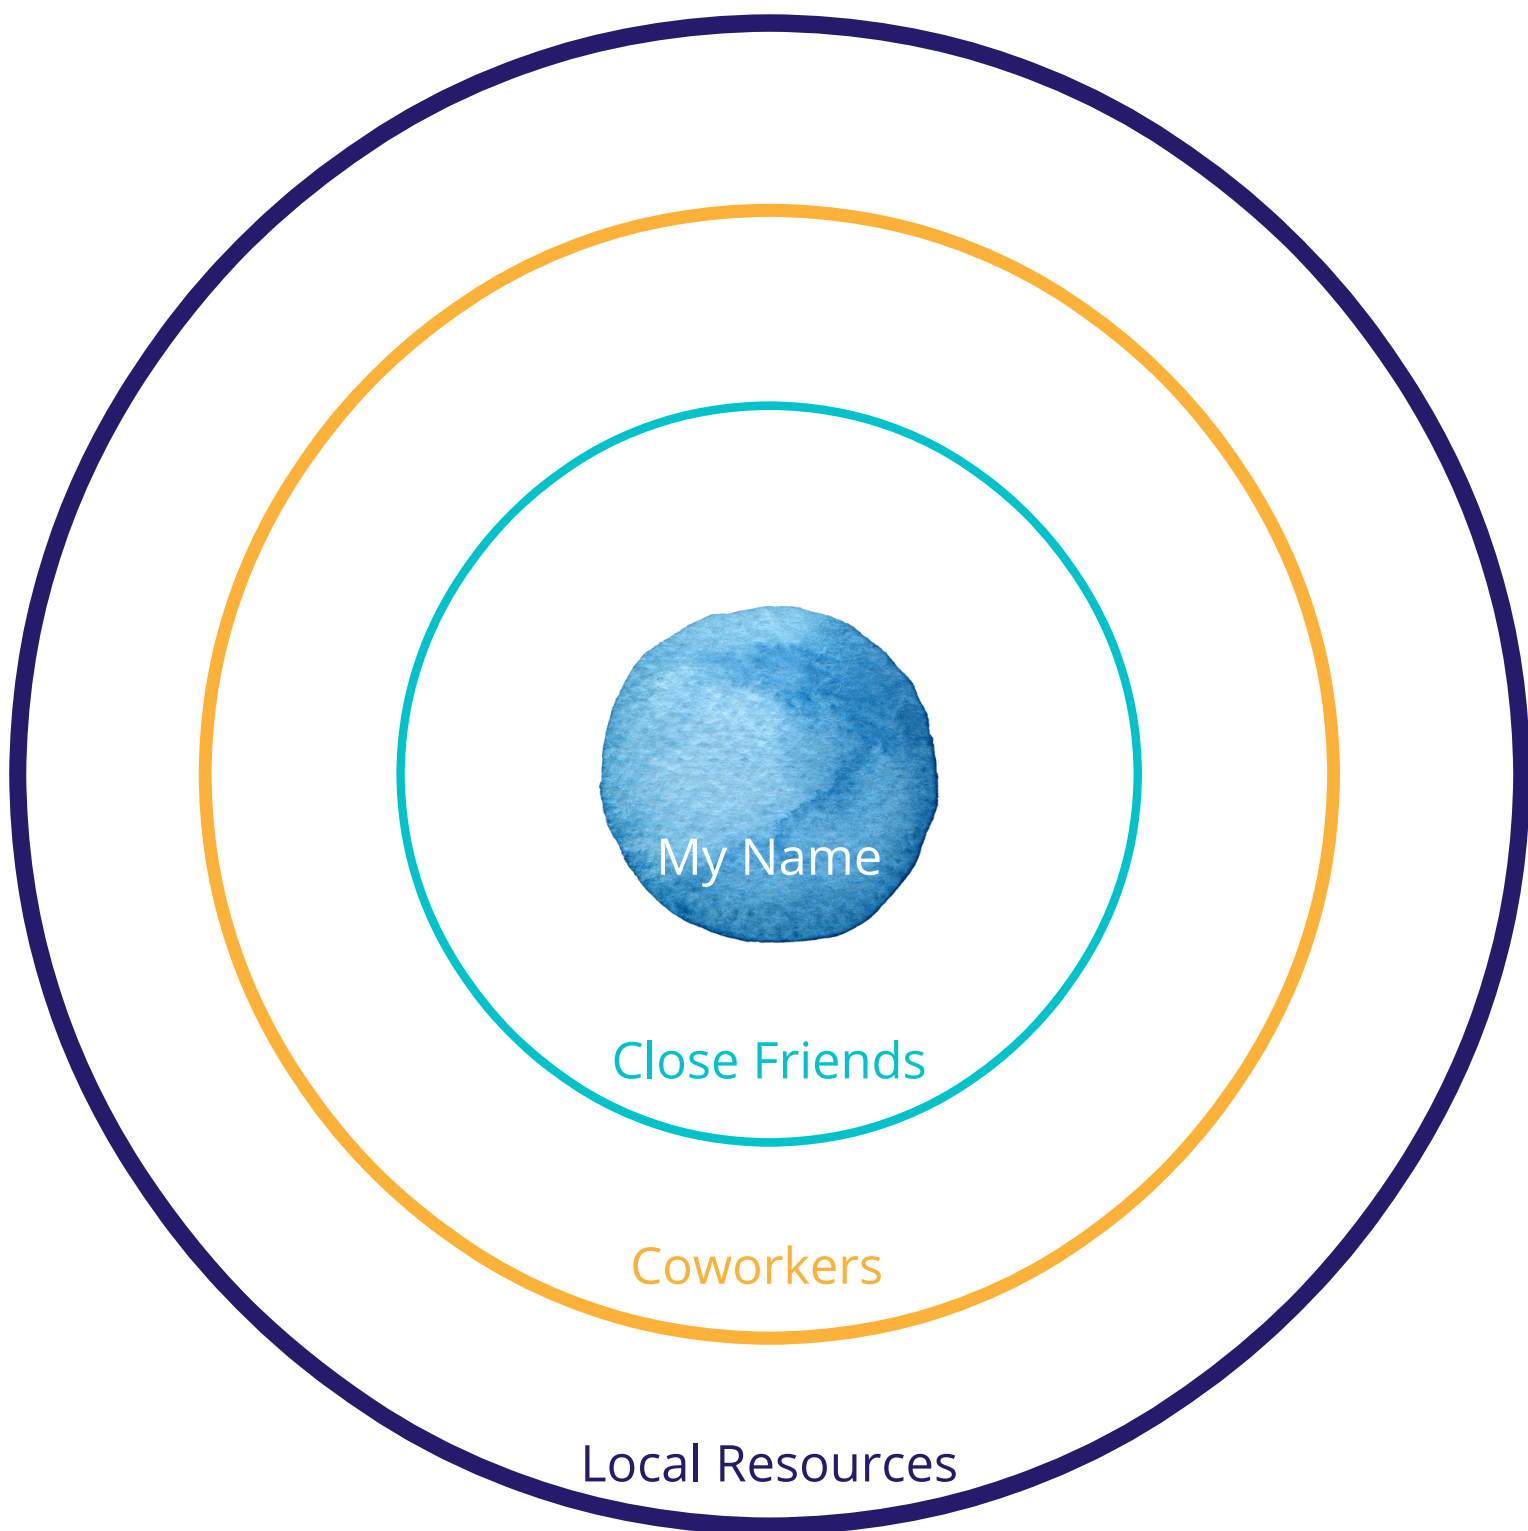

To start, think of who in your community *you* can talk to if a youth tells you something concerning.

Instructions:

1. **Circle 1: Write your name**
2. **Circle 2: Write the names of people very close to you.** Trusted relatives or friends who you know can help and listen are good people to start talking with when you need support.
3. **Circle 3: Write the names of coworkers;** people you know can help with resources or names of other partners or organizations.
4. **Circle 4: Write the names of local or national resources** that you can get support for either yourself or youth. For example, school or tribal counselors, coaches, teachers, administrators, health educators, community or traditional leaders.
