Andreana: Hello. I am Andreana (she/her). Health Technician with Navajo Area Office.
Hello Arika! Yea! So very glad you are here!

Hello there, young man! Great to see you here!

Creating Emotionally Safe Environments is so very important for a positive learning experience! This is a helpful start in pushing back on bullying and lifting up self-esteem & confidence.

Peer-to-Peer support and advocacy for each other from the start is good relationship building + instilling respect over time in and out of the classroom.

I love this <3
Jessica: I think being someone they can talk to means being someone they trust and that can take time.

Hannah: Model inclusivity, like wearing 2SLGBTQIA+ support & pronoun pins.

Josephine (Phines) (she/her): Showing a good example of what you expect. Being a good listener. Understanding or being empathetic. Also being authentic to yourself.

ben: Small exercises & activities to build rapport.

Tyra: There was this neat project that I had done that was inspired by “Freedom Writers” Where we allowed youth to have personal journals that were placed in a secure space for access. It allowed the youth to know that someone safe is aware of their thoughts and even current situations.

Jessica: And modeling being willing to make mistakes and take responsibility for this was benefit toward those who aren’t outspoken as well as teaching others that there individuals outside of their family circle are aware if their wellbeing.

Jessica: Yes being that auntie is what’s up.

Annette: Encouraging self expression and saying that the space is nonjudgmental.

Charity: I rely on those in my community to fill the places in my children’s lives that I can’t fill.

Eva: Good morning everyone and a shoutout to Hannah!

Jennifer: Thanks for addressing this!

HANNAH: How about youth that turn there lives around it hard for them to get the trust back cause there getting judged.

HANNAH: But building something in there community as a signage it helps them stand taller but actually showing there talents helps them grow to.

Michelle: Chat Box Question: What other facilitator (ex: educator/clinic staff/youth advisor) characteristics help create a safe space?

Michelle: Humility.

Annette: being a good listerner.

Nichelle (she/her): Empathy, good listener, understanding.

Dana, Goldendale & Bickleton: Present at the moment and engaged.

Charity: Creating the environment you needed growing up.

Tyra: Having a comfortable and approachable attire. I’m an artsy person, so I pay attention to the wardrobe.
Michelle: We hear our youth say "Be Real - don't try to be something or someone you are not - authentic."

Kashmir: Meeting them on their own level. Ntv communities are all about laughter and having fun with each other. Build that rapport with them while having fun.

Jackie: Ability to apologize or admit wrongdoing as an adult and model that students.

Audre: Creating an environment that empowers youth to use their voice.

Tyra: Also becoming adaptable to conversations.

Nicole: Moving at the speed of trust (especially with sexual health conversations).

HANNAH: Some hidden skills.

Sandra: Being mindful about language even those words that have been normalized in everyday speech but have harmful origins.

Kashmir: Yes and giving them access to those cultural practices.

Michelle: Idea: Incentives for youth are wonderful ways to positively affirm youth as well as contribute to learning -- engagement, growth and recruitment/retention -- reward "doing something awesome!"

Danya: The transcript just stopped?

Michelle: Replying to "The transcript just ..."

Hello Danya - I will let Taylor know.

Taylor Dean: Replying to "The transcript just ..."

captions are enabled on my end, you might have to go into your own settings.

Michelle: Chat Box Question 2: What is your top classroom management tip?

Ben: Strength based approach; focusing on a person’s or group’s positive attributes.

Nichole: Be willing to adapt and be flexible to what best fits the needs of the youth that day.

Michelle: Idea: Timing of your class and/or appt with youth -- be mindful of the time of day -- AM or after lunch (try ice breakers to get energy and motivating juices going.

HANNAH: Dream big and I'm gonna steal all your ideals.

Clover: Being specific about the tone of the space and asking students about their comfortability in conversation and discussion.

Jackie: Consistency.
Sandra: Naming students by the name they would like me to use for them even on the first day we meet. I struggle with names a lot so I have name tags for everyone and myself on the first day until I learn everyone’s name. Ensuring that students are also learning each other’s names with ice breakers, team builders, and games.

Michelle: Chat Box Question 3: How do youth characteristics shape the learning environment?
